Work History

Chief Technology Officer *(Sep. 2024 - Present)*
syGlass, Inc. (IstosVisio, Inc.)

- Built hardware-agnostic VR tools and user interfaces using OpenGL, C++
- Developed startup software product which raised $500k+ of initial seed funding
- Worked directly with 3D graphics & transformations, data I/O, UX design
- Collaborated on development tasks monitored via Redmine project management software
- Wrote readable, maintainable code evaluated through peer reviews of pull requests
- Responsible for full project stack including C++ VR app, Python backend, and JS web app

Lead Software Engineer *(Feb. 2019 - Sep. 2024)*
syGlass, Inc. (IstosVisio, Inc.)

- Researched and applied machine learning techniques to classify images of food
- Trained classifiers using deep learning technologies VLFeat and Caffee
- Contributed a highly competitive model tested on 750k images from 101 classes
- Presented findings at West Virginia University Undergraduate Research Symposium

Software Engineer *(May 2016 - Feb. 2019)*
syGlass, Inc. (IstosVisio, Inc.)

- Designed and constructed optics setup to probe materials for optical properties
- Wrote MATLAB scripts to process, analyze, and visualize resulting data
- Participated and presented project progress in weekly research group meetings

Technical Skills

- C++11/14
- Python 2.7/3.5
- Java 8
- Git & Github
- Team Communication
- API Design
- OpenGL & GLSL
- User Interfaces
- Image Processing
- RESTful Web Services
- Continuous Integration
- Web Scraping
- API Documentation
- Database Design & SQL
- LaTeX

Education

B.S. Computer Science, Computer Engineering *(Aug. 2014 - May 2018)*
West Virginia University, Morgantown, WV
Dual Degree Program / Magna Cum Laude
